Subject: RE: Regional PFAS Engagement Session

Hi Kate,

Commissioner Mercer has asked me to participate on the Commissioner's call today at 1:30 to discuss plans for the NH event. Can you send me the call-in information?

We have some pretty significant concerns about how the agenda seems to be shaking out, and appreciate the Commissioners being engaged to discuss this.

Thank you,
Melanie Loyzim

Subject: Regional PFAS Engagement Session

Good afternoon, Commissioner Mercer.

As part of our Regional PFAS Engagement Session, our Tuesday June 26th agenda includes a Moderated State Panel. The goal of this panel is to provide a brief overview of how each of our state partners is addressing PFAS, and to hear state thoughts for consideration in the development of EPA's PFAS Management Plan.

Each state will be provided with 10 minutes to provide information related to the following areas of interest:

1. Overview of state approach/strategy related to PFAS.
2. Presentation of state-specific PFAS benchmarks.
3. Challenges state faces in identifying, addressing and communicating about PFAS.

Given the limited timeframe for each state to speak, we request that the environmental commissioners/directors for CT, RI and ME coordinate with your drinking water public health counterparts to include any information pertinent to their programs.

I hope that you or a member of your staff will participate on this panel. My Point of Contact for this panel is Meghan Cassidy. Please confirm your participation and identify the state speaker via email to cassidy.meghan@epa.gov by COB Friday, June 15th.
